Teaching Strategies Gold & The Creative Curriculum

Teaching Strategies Gold is the learning management system that is being used in all our preschool classes. Teaching Strategies Gold is an observation based assessment system - the perfect companion resource for **The Creative Curriculum**. Based on the same 38 objectives that are predictors of school success, Teaching Strategies Gold is fully aligned with Creative Curriculum. It helps teachers know what to look for and how best to support children's continued progress. Teaching Strategies Gold provides linkage to the curriculum and points teachers towards activities and instruction connected to areas identified as in need of development based on ongoing assessment.

What is the best part of Halloween? For kids it's candy! Parker United Methodist Church is hosting Trunk or Treat again this year. This event is a crowd favorite! Families from all over our community come to check out the trunks and the kids fill up on candy. Help us make this year a success! We are looking for candy donations. Please consider donating candy to give to the trick or treaters! If you are interested in decorating a trunk click [here](#) to sign up or contact Noelle noelle@parkerumc.org

What Is Restraint Collapse?

Why kids hold it together at school and then fall apart at home.

- Why kids fall apart when they get home school
- Don't fight the collapse – embrace it
- Restraint collapse is hard on parents, too
